Subject: Category H-A Event (EPA Registration # 62190-14)  
To Whom it May Concern,

Pursuant to FIFRA section 6(a)(2), Arch Wood Protection, Inc., c/o Lonza, is notifying you that it has been informed of an H-A event.

The deceased male [REDACTED] (Aiken County, South Carolina), was [REDACTED] years old at time of death. He is alleged to have worked for 27 years as a self-employed carpenter handling lumber treated with CCA (chromated copper arsenate) preservative. He is further alleged to have come into contact with CCA in dry and aqueous forms (including wood dust or other fine particles) and vapors during professional use of such lumber over the course of his career. He is also alleged to have later been diagnosed with Acute myelocytic Leukemia, in turn experiencing symptoms including loss of strength, loss of enjoyment of life, sickness, tooth decay, depression a compromised immune system, and deprivation of ability to function without assistance. Whether any protective measures/clothing were used or label directions followed, the time between alleged exposure and onset of symptoms, and other pertinent information including other aspects of exposure was not reported.
